

EDUCATION

Engineering Degree in Computer Science,
Higher Institute of Applied Science and Technology
2022 – 2025 | Sousse, Tunisia

Preparatory Cycle, *Higher Institute of Applied Science and Technology*
2020 – 2022 | Sousse, Tunisia

PROFESSIONAL EXPERIENCE

Software Engineer Intern, *Enova Robotics*
02/2025 – 05/2025 | Sousse, Tunisia

- Implemented a control and monitoring application for a solar panel cleaning robot using **Spring Boot, Ionic React, MySQL**, integrating **InfluxDB**, and **MQTT** to enable low-latency robot communication.
- Extended the application with a **Flask-based multi-robot simulation module**, supporting concurrent robot behavior (multithreading), GPS navigation, and real-time metrics generation.
- Integrated advanced features, including scheduling, automated task triggering, real-time alerts, remote control, and 3D robot behavior simulation with **ThreeJS** to enhance operational efficiency.
- Deployed a **deep learning-based anomaly detection model (89% accuracy)** via **FastAPI on Docker**, orchestrated with **Apache Airflow**, improving fault detection reliability.

SAP Consultant Intern, *Deloitte Consulting*
06/2024 – 08/2024 | Tunis, Tunisia

- Designed a complaints management web application and deployed it on **SAP Business Technology Platform (BTP)**.
- Leveraged **ABAP RESTful Programming** and **SAP UI5** to deliver a fully integrated end-to-end SAP solution, aligning backend services with modern Fiori-based front-end design for an intuitive user experience.

Web Development Intern, *Andromedia*
07/2023 – 08/2023 | Tunis, Tunisia

- Developed an administrative dashboard for a digital comic book platform using **React, Firestore, Redux** (efficient state management and real-time data).

TECHNICAL SKILLS

Front-end Development: HTML, CSS, JavaScript, Tailwind, | Alpine JS, MUI, Ant Design, React JS, Ionic React

Back-end Development: Python, Flask, FastAPI, Node JS, Express JS, Spring | Boot, ABAP RESTful

Databases: MongoDB, Postgres, MySQL, InfluxDB

Design: Figma, Adobe Illustrator

ML/DS: Pandas, NumPy, Scikit-learn, TensorFlow

Devops & Tools: Git, GitHub, Docker, CI/CD (GitHub Actions, Jenkins)

BI Tools: Power BI, Tableau

Cloud/AI: Azure AI & ML, Cognitive Services

Streaming: MQTT, Kafka, Telegraf

AI Workflow Automation: Apache Airflow

PROJECTS

Academic Curriculum Tracker,
ReactJS, Spring Boot, Tailwind, MySQL

- Implemented **user management, scheduling, and note tracking features**, improving task organization and saving administrators an estimated **20% of schedule planning time**
- Followed a **hexagonal architecture** for maintainability and scalability, and delivered an **intuitive, user-friendly interface**.

Messaging App, *MERN stack, Socket.io*

- Engineered a **Messaging Application** using the **MERN stack** and **Socket.io** , enabling **real-time, bidirectional communication** via WebSockets.
- Created a responsive UI with reusable components, **enabling faster feature integration and consistent design**

University Management System, *Spring Boot, Kafka, Docker, AOP*

- Managed **student and teacher information** through a **decentralized system**, implementing the **CQRS model** with **Apache Kafka** for asynchronous microservice communication.
- Implemented AOP-based logging and monitoring, standardizing error tracking across the application and accelerating issue resolution

AI-Powered GitHub Documentation Generator,
React, Tailwind, FastAPI

- Built a web app that generates **documentation** from **GitHub repositories**.
- Used **GitHub API** and **GitPython** for commits and parsing.
- Applied **AI summarization** to produce structured, readable documentation.

Certifications

Data Science Bootcamp: 365 Careers

Learn React: Scrimba

Prepare for Your Career in Generative AI: LinkedIn & Microsoft

Foundations of Artificial Intelligence: LinkedIn & Microsoft

GenAI Job Simulation: Forage

Azure AI Fundamentals: Microsoft
